Barry Callebaut only processes carefully selected ingredients and has been producing its finest Belgian chocolate for more than 100 years in the heart of Belgium, using traditional handcraft methods. Produced with affection, this tradition goes on from generation to generation. **We rely on this quality.** All of the chocolate products that are processed in our chocolate factory are produced with this chocolate.

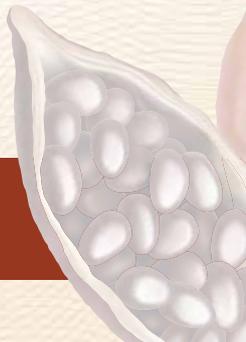

By choosing Callebaut chocolate, you will make a contribution to the success of the cocoa farmers in the countries of origin.

For each piece of this finest Belgian chocolate, Callebaut uses 100% sustainable and fairly produced cocoa.

This is ensured as Barry Callebaut's project directly supports local cocoa farmers.
